Professional Summary

Cybersecurity and Infrastructure Specialist with 8+ years of experience in enterprise and SMB environments. Proven expertise in network security, virtualization, and infrastructure triage, with a specialized focus on information security compliance and risk assessment. Experienced in analyzing security vulnerabilities, enforcing security baselines, and supporting regulatory compliance initiatives (e.g., HIPAA, PCI, CJIS).

EXPERIENCE

Security Analytics Professional

Legacy IT, LLC | Early, TX

February 2026 – Present

- Analyze network and system security risks using industry-standard tools.
- Oversee regulatory compliance (HIPAA, PCI, CJIS) and ensure adherence to security standards.
- Coordinate external penetration tests and social engineering simulations.

Secure Infrastructure Specialist

Legacy IT, LLC | Early, TX

June 2023 – February 2026

- Apply security patches to Windows and Linux operating systems.
- Manage virtualization platforms (VMware, Proxmox) with a focus on security hardening.
- Script security tasks using PowerShell and Python.

Network Technician

Legacy IT, LLC | Early, TX

July 2020 – June 2023

- Act as primary escalation point for complex infrastructure and workstation issues.
- Design and implement routed/switched networks (MikroTik, pfSense).
- Perform Layer 1-3 troubleshooting and firewall rule validation.
- Provide training and oversight for junior staff.

IT Helpdesk Technician

Comanche County Medical Center | Comanche, TX

March 2020 – July 2020

- Identify and remediate system security vulnerabilities
- Support Windows OS, Microsoft Office, and local line-of-business applications
- Assist with server, network, and documentation improvements

Technician

Legacy IT, LLC | Early, TX

February 2018 – March 2020

- Perform workstation deployment, hardware replacement, and break/fix support
- Install structured cabling and network equipment
- Assist with workstation imaging, OS installs, and software configuration

Education

Western Governors University | Salt Lake City, UT

B.S. Cybersecurity and Information Assurance

Expected Graduation: February 2027

Texas State Technical College | Brownwood, TX

A.A.S. Cyber Security

A.A.S. Computer Networking and Systems Administration

September 2016 - December 2018

Certifications

CompTIA CySA+, *CompTIA Inc* - February 2026

CompTIA Security+, *CompTIA Inc* - April 2023

CompTIA Network+, *CompTIA Inc* - June 2023

CompTIA A+, *CompTIA Inc* - January 2023

CompTIA Project+, *CompTIA Inc* - January 2026

LPI Linux Essentials, *Linux Professional Institute Inc* - March 2026

Technical Skills

- **Compliance & Governance:** HIPAA, PCI-DSS, NERC CIP (Foundational), Risk Assessment
- **Cybersecurity:** Breach Simulation, Vulnerability Assessment, Zero-Trust Architecture, Firewall Management
- **Scripting & Automation:** Python (Paramiko), PowerShell
- **Networking & Security:** MikroTik, pfSense, OPNsense, SonicWall, Ubiquiti UniFi, VLAN Segmentation
- **Virtualization & Servers:** VMware ESXi, Proxmox VE, Windows Server, Linux (CLI/Hardening)
- **Containerization:** Docker, Kubernetes (k3s)
- **Artificial Intelligence:** Claude API Integration, Prompt Engineering, Agent Skills (Claude Code), MCP Server Development (Model Context Protocol)
